TIME TO CONNECT

A five year journey will take him around the UK in a converted camper van, which also doubles as a mobile studio, to capture a portrait of the UK, post Brexit, post pandemic, in all its richness and diversity across all 100 counties. The journey is being captured using photography, film, podcasts and other creative mediums.

NOTTINGHAMSHIRE HAS BEEN THE CATALYST FOR THIS PROJECT, LAUNCHING THE FIRST TIME TO CONNECT JOURNEY.

**THE VIEW FROM
THE CAMPER VAN**

Morrison is leaving a lasting legacy by connecting with local creatives of all types, who are commissioned to create beautiful pieces of art in each county.

ABOUT?

CONNECTING WITH NOTTS

In Nottinghamshire, Morrison worked with Inspire: Culture, Learning and Libraries and Miner2Major to create a project that connects artists, venues and community groups to help leave a legacy of Time to Connect artworks in 6 key locations across Sherwood Forest.

Each Nottinghamshire artwork will be connected by the words:

TAKE 'TIME TO CONNECT' WITH THIS PLACE AND WITH EACH OTHER.

Inspire

ABOUT THE

MANDY KEATING

Mandy Keating is a visual artist who enjoys using paper-based materials to create 2D and 3D collages and digital art, reusing or reimagining found objects or discarded materials. Through her socially engaged practice she collaborates with people to find new ways to tell a story visually, whether heritage, social history or pure fiction.

Her own art gives audiences the chance to immerse themselves in the story she tells, to smile, to enjoy, to be curious.

PROJECT ROLE: WORKING WITH GROUPS TO CREATE SITE SPECIFIC DRAWINGS

TRACEY MEEK

Tracey Meek is a multidisciplinary artist working with a range of mediums; painting, ceramics and immersive installation. Her work is intuitive in process and content, a tactile extension of herself and reflection of surroundings.

With a playful, experimental approach that translates into community engagement, Tracey enjoys finding interesting new ways of sharing creative process through interaction and intervention.

DID YOU KNOW

THESE BESTWOOD COUNTRY PARK FACTS?

The park and surrounding area was once a hunting ground of 3,711 acres, part of the medieval Sherwood Forest, which covered large areas of Nottinghamshire.

The winding engine dates back to 1876.

Bestwood Colliery was one of the busiest coal mines in Nottinghamshire.

In 1967, the coal mine fell silent.

In 1973 the formation of the current Country Park began.
