

How to make a festive pompom star decoration

You will need:

Wool
A table fork
A pen or pencil
Scissors
Thin card

1. Wrap wool around a table fork to make a very small pompom.

2. Cut out a star shape with a hole in the middle from thin card.

3. Push the pompom through the hole in the middle of the card star so that it appears evenly on each side, it's quite a tight fit so the pompom should stay in place without any glue.

Why not use other simple card shapes e.g. Christmas trees or dragon wings - and add googly eyes or other stick-on embellishments?
