

How To - Make a newspaper plant pot

Sherwood's Landscape of Trees and Hedges

Figure 1

Figure 2

Figure 3

Figure 4

- Take a sheet of newspaper and tear or cut it in half. *Figure 1*
- Fold it in half, *Figure 2* then in half again *Figure 3* and then again. *Figure 4*
- Turn your paper so the folds and edges match *Figure 5*

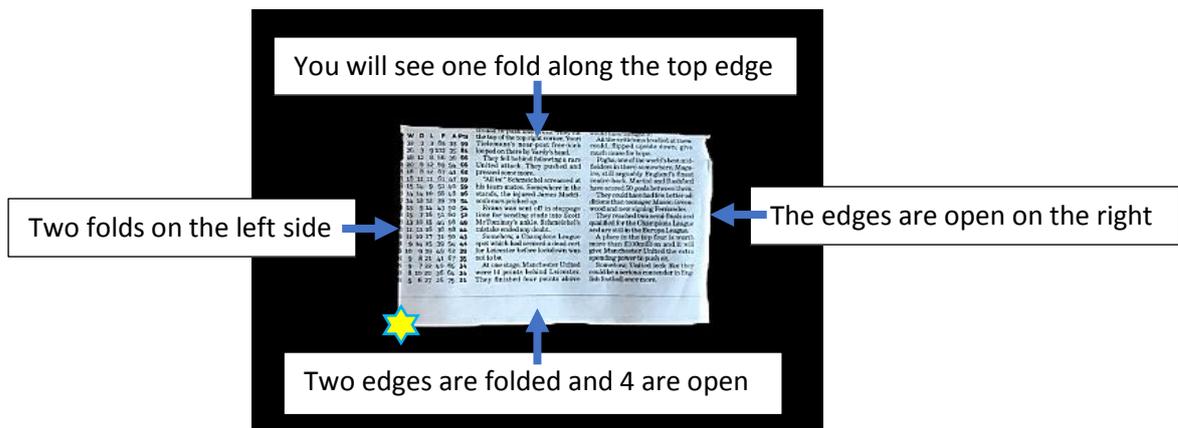

Figure 5

Figure 6

Figure 7

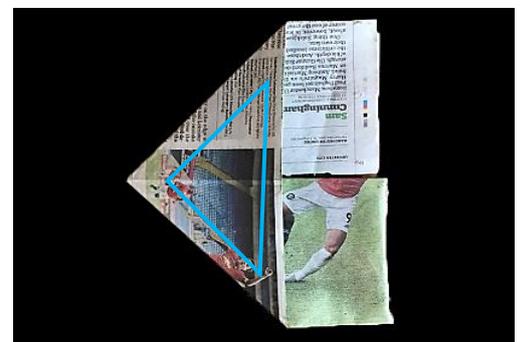

Figure 8

- From the bottom left corner  *Figure 5* open the top fold and refold it into an arrow shape *Figure 6*
- Turn the paper over *Figure 7*
- Now from the top left corner  open the top fold and refold to make another arrow shape *Figure 8*

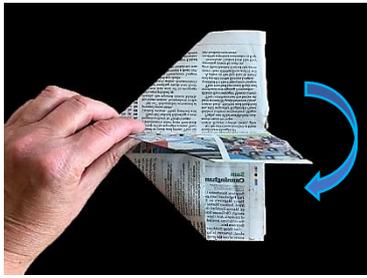

Figure 9

Figure 10

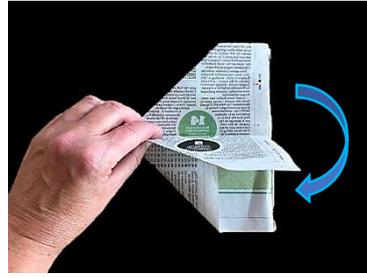

Figure 11

Figure 12

- Refold this shape so the arrow folds face each other (with no arrow folds visible) *Figures 9-10*
- Turn over and repeat *Figures 11-12*

Figure 13

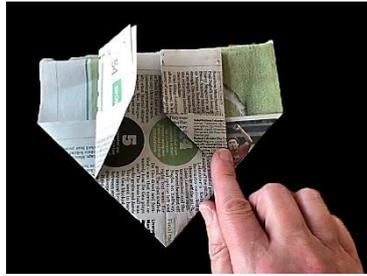

Figure 14

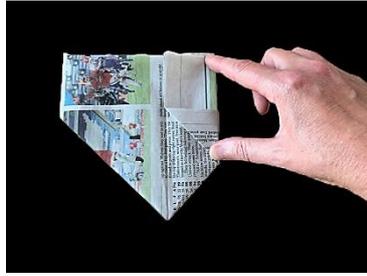

Figure 15

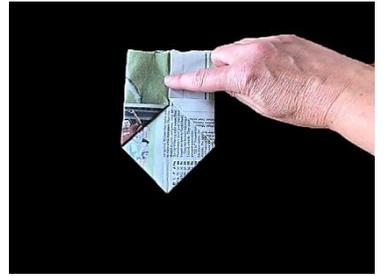

Figure 16

- Fold left side top layer to the centre line *Figure 13*
- Repeat for the right side top layer *Figure 14*
- Turn over and repeat *Figures 15 -16*

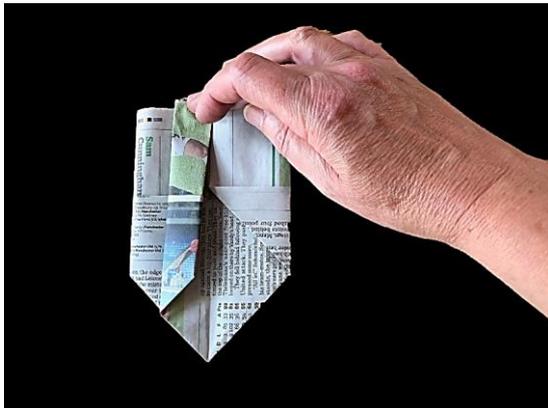

Figure 17

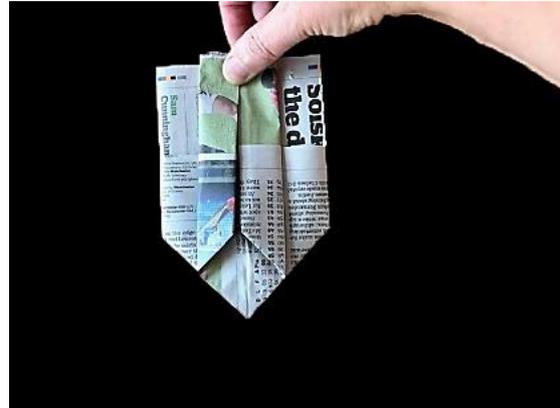

Figure 18

Figure 19

Figure 20

- Fold left and right side top layer to the centre line again, turn over and repeat *Figures 17-20*

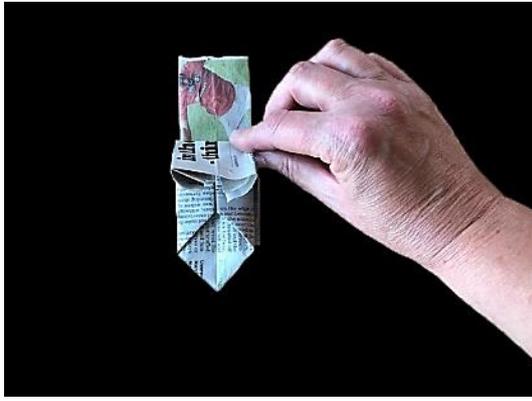

Figure 21

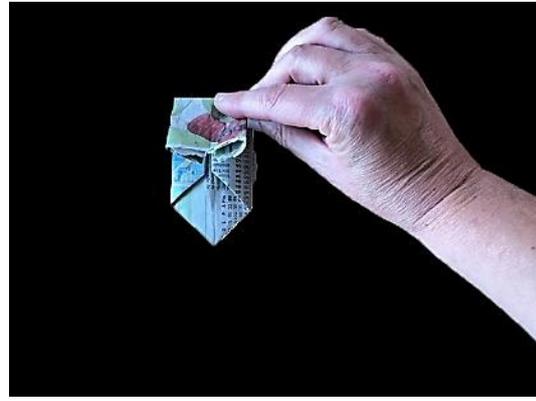

Figure 22

- Fold the square end top layer towards the point.
- Turnover and repeat on the other side.

Figure 23

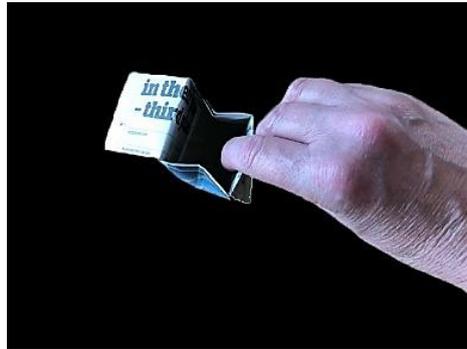

Figure 24

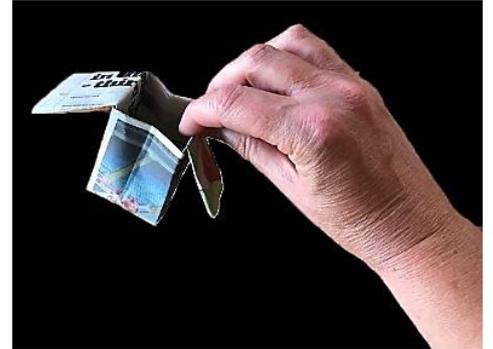

Figure 25

- Find the middle and look inside, as you gently pull the sides apart your plant pot appears!
Figures 23-25

Figure 26

- Finally add compost and plant a seed Figure 26
- Why not see if you can find an acorn and grow a brand-new Sherwood Oak!

Sherwood's Landscapes of Trees and Hedges

Trees and hedgerows are a vital component of Sherwood's landscape. We know that trees are important not only for their biodiversity value, but also for their cultural and emotional connections. Sherwood's trees and hedgerows are loved by local people and eagerly anticipated by visitors to the area.
