Can all young people make great art?

We think so! Here at Inspire Youth Arts (IYA) we believe that all young people should have the opportunity to access the highest quality arts: explore their own capabilities and strengths, unlock their full potential, and to make the unimaginable happen.

During the past year all our large events had to be postponed due to the COVID-19 pandemic, but that didn't stop many of our regular groups, who continued to meet online via Zoom and create some beautiful pieces of work! As restrictions start to lift, we're excited to welcome young people back to our sessions and groups and can't wait to start sharing their amazing work at festivals and events.

We're based at The Old Library in Mansfield – a unique arts venue in the heart of town – offering a professional recording studio, 100 seat studio theatre, exhibition area, café-bar, mac suite and a number of teaching, workshop, meeting and rehearsal spaces.

Our priority is to keep our visitors and staff safe and we've worked hard to reorganise these spaces and introduced social distancing and additional hygiene measures. We can't wait to see you back at The Old Library soon!

We offer a range of regular groups and workshops suitable for young people aged 7-25, usually held at The Old Library in Mansfield as well as venues across the county.

From contemporary to streetdance, urban music projects to rock schools, steel pans to song writing, there's something for everyone! Keep an eye out for our new autumn sessions which we'll announce in September!

We're excited to announce our new artist development and record label, eNGine Room! eNGine Room is our not-for-profit label, supporting and showcasing some of the best young talent emerging in Nottinghamshire, and is supported by Arts Council England.

We aim to develop artists with a focus on a range of tailored support - songwriting, recording, production, performance, marketing and promotional campaigns and releasing - to suit the development of young and emerging musical talent across Notts.

Artists from the music programmes will then have intensive sessions going forward, the style of which will depend on their needs, to develop them to a level where they can record and produce material for release on the label and for performance at IYA events and showcases, external and partnership events.

eNGine Room will be partnered with a team of associate artists and producers, designed to equip the young musicians with the best advice and tools for the development of their professional careers within the industry.

The label will also provide opportunities for young artists to work on film, media, photography and promotional aspects of the label to help foster and develop their careers within the creative industries.

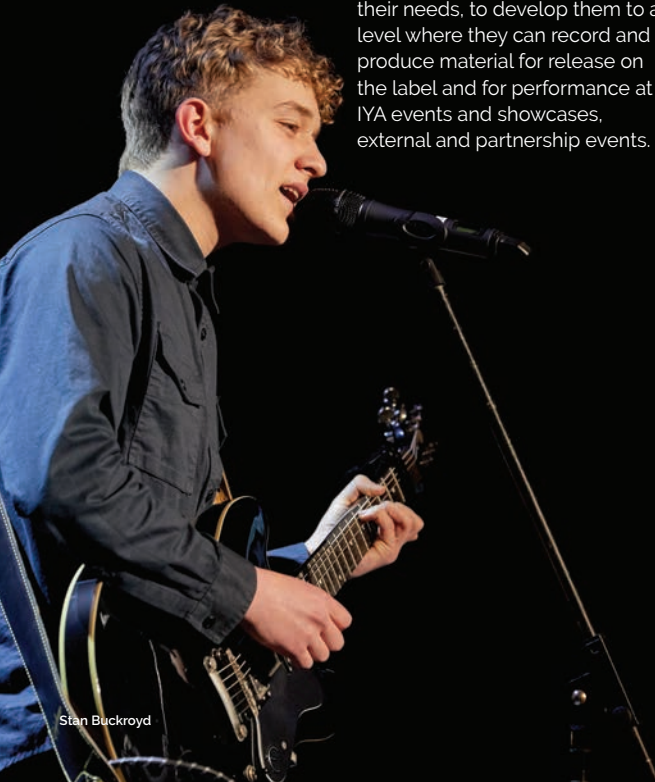

The label has already released **Able Orchestra's** 'The SUMP Collective Chill Remix' on 21 May, and a busy 2021 of releases is already scheduled, beginning with **Jack Chapman's** 'Paper Planes' on 4 June. Other artists recording and releasing their first singles over the next few months include **Sam Barker, Margarita, Stan Buckroyd** and **Sam Adams**, as well as the **CRS Collaboration**.
